Country Presentation Paper

Russian Federation

The 10th Session of the Technical Committee of CSAM &
Regional Workshop on Establishing a Regional Database of Agricultural Mechanization in Asia and the Pacific

17-19 November 2014
Siem Reap, Cambodia

Evgenii Korchevoi
RosAgroMash
I. **Overview of the statistics system for agricultural mechanization in your country**

a) Responsible agency - *Federal State Statistics Service*

b) Channels and ways - statistical survey of agricultural enterprises except micro enterprises
   Frequency - *Annual*
   Report and disseminate the agricultural mechanization statistics - *Reports and on-line database on the website of Federal State Statistics Service*

c) Quantity and quality of agricultural mechanization statistics - *Statistics in units by region.*

d) Does agricultural census cover component of agricultural mechanization?
   Yes. *Last* agricultural census was at 2006. Next agricultural census will organize at 2016.

II. **Gaps and Needs**

a) What are the challenges and constraints for the statistics collection and management?
   3. *The Objectivity.* Agricultural enterprises must report number of machines including which are broken or which cannot be used

b) What are the minimum data and statistics requirements of agricultural mechanization in your country?
   The *data must contain units information with groups of machines with different engine power.*
III. Solutions and Suggestions (Both State and Regional Perspective)

a) How to improve the current statistics collection and management?
   1. Improve discipline enterprises
   2. Improve the quality of communication
   3. Edit category of agricultural machinery with the advent of new technology

b) Needs and feasibility of establishing a regional database of agricultural mechanization in Asia and the Pacific

Needs to develop a Common Standard of statistics information for agricultural mechanization

c) How you could contribute to the proposed regional database of agricultural mechanization?

We can participate in the drafting of Common Standard and communicate with Federal State Statistics Service
