Statistics systems for agricultural mechanization

- » WHO? Federal State Statistics Service
- » HOW? Annual statistical survey
- » WHOME? Agricultural enterprises except micro enterprises
- » WHAT? In units by region by types of machines

FLEET OF MAIN MACHINERY IN AGRICULTURAL ENTERPRISES (end of year; thou. pieces)

Tractors ²⁾
Ploughs
Cultivators
Seeding machines
Combines:
grain harvesters
maize harvesters
forage harvesters
potato harvesters
flax harvesters
Beet harvesting machines (except beet tops pickers)

Mowers
Pick-up attachments to harvesters
Reaping machines (on rollers)
Water-sprinkling machines and units
Scattering machines for solid mineral fertilizer
Fertilizer applicators of:
solid organic
liquid organic
Spraying and dusting machines, tractor
Milking units and aggregates

INVENTORY OF TRACTORS AND HARVESTERS IN AGRICULTURAL ENTERPRISE (end of year)

Number of tractors per 1000 ha of arable land, units
Arable land per a tractor, ha
Number of harvesters used per 1000 ha of cultivated lands (plantation) of relevant crops, units:
combines
grain harvesters
maize harvesters
potato harvesters
flax harvesters
beet harvesting machines (except beet tops pickers)

Sowing land (plantation) of relevant crops, ha:
per one combines
grain harvesters
maize harvesters
potato harvesters
flax harvesters
per one beet harvesting machines (except beet tops pickers)
