The Asian and Pacific Network for Testing of Agricultural Machinery (ANTAM) Survey to Better Meet the Needs of Agricultural Machinery Associations

Marco Silvestri

Programme Officer
Centre for Sustainable Agricultural Mechanization (CSAM)
United Nations Economic and Social Commission for Asia and the Pacific (ESCAP)
OUTLINE

1. Overview
2. Phases
3. Survey
### ANTAM Overview

- 19 Participating Countries (and one associate member of ESCAP)
- Promote mutual recognition of testing results through development and adoption of harmonized region-wide testing codes and procedures for machinery testing;
- Website: [www.antam-network.net](http://www.antam-network.net)

Benefits and Objectives

- Forge a common definition and understanding of minimum standards for sustainable agricultural machinery among participating countries;
- Facilitate intraregional trade of sustainable agricultural machinery
- Reduce the social and economic cost of production and use of unsafe, inefficient and inappropriate agricultural machinery

Photo courtesy: Zheng Guohua
Actions: Capacity Building and Normative Work

- Upgrade and improve existing testing facilities of participating countries [Training of Trainers; Field visits]
- Promote mutual recognition of testing results through development and adoption of harmonized region-wide testing Codes and procedures [TWGs, Annual Meeting]
ANTAM Phases

- **Development of region-wide agricultural standards** that reflect the agricultural and technological needs of 19 member countries [3 codes]

- **Establishment of a network of testing stations** able to perform the standardized ANTAM Codes and produce consistent test reports [Quality Manual]

- **Establishment of a mutual recognition agreement** for test results produced under the ANTAM umbrella.
Survey to Better Meet the Needs of Agricultural Machinery Associations

1. Relation with testing/certifying authorities (for domestic trade, import and export)

2. Compulsory/voluntary testing and their benefits (subsidies, etc.)

3. Benefits/negative implications of a regional certification to your business?

4. How can ANTAM certification be more beneficial? How to promote the future ANTAM certification among manufacturers and farmers in your country?
Thank you!
